

FROEHLING & ROBERTSON

An EXPERIENCED Engineering Firm That  
SCHOOLS THE COMPETITION

Froehling & Robertson, Inc. has been serving the design and construction communities for more than 135 years. A minority-owned business established in 1881 with local operations centers encircling the nation's capital since 1941, F&R is a leading multi-disciplinary engineering firm that both predates and outlasts our competition. At F&R we focus on you by offering construction engineering solutions that are innovative, yet practical.

For decades, F&R has partnered with K-12 school systems, private institutions, and other educational stakeholders such as architects and general contractors to address the unique set of individual goals and needs of their facilities. As a result, F&R knows that the most successful K-12 projects are those that are staffed by professionals that are obsessively focused on solving problems and minimizing roadblocks. It is only through assembling the best team possible that our educational clients

**FULLY INTEGRATED SERVICES**

*From the Classroom to the Cafeteria*

**Geotechnical Engineering**

**Construction Materials Testing**

**Third Party and Special Inspections**

**Environmental Consulting**

**Geostructural Monitoring**

**Dam Consulting Services**

**Drilling Services**

**F&R MAKES THE GRADE**

*Getting the Job Done, Every Day, Every Campus.*

**One-Stop Service = No Surprises, No Delays**

F&R offers completely in-house drilling, AASHTO accredited materials testing laboratories, and certified professional staff.

**The Special Inspections Cream of the Crop**

F&R is the last word in code knowledge and best practices methodology. In fact, we often train our competition!

**We Know the Drill**

Over 70 years of conducting subsurface explorations throughout the mid-Atlantic and beyond gives F&R an unmatched perspective on the characteristics of our regional geology.

A Minority Owned Business
